MEMORANDUM FOR THE GENERAL MANAGER

SUBJECT: MEDICAL SURVEY OF MARSHALL ISLANDERS -
MARCH 1960

BEST COPY AVAILABLE

The two attached letters to the Chief of Naval Operations require your signature.

In November, 1959, Dr. Robert A. Conard conferred with Mr. Nacker and the medical personnel of the Trust Territory and obtained their approval for this year's survey of the islanders. Dr. Conard and his hematological technician, Mr. W. A. Scott, will be accompanied by Dr. Macdonald and the one or two others of the Trust Territory Medical Group to Rongelap to carry out the very limited follow-up agreed to.

Dr. Conard has been instructed to let us know at once if he finds significant changes in the health of the Rongelapese.

C. L. Dunham, M.D., Director
Division of Biology and Medicine
